

Safety Data Sheet

RHS102, RHS116 & RHS117 Reynard Bath in Bed Wipes

1. IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Name: Reynard Bath in Bed Wipes
Product Code: RHS102, RHS116, RHS117
Identified use of product: Full body cleansing for patients
Company Name: Reynard Health Supplies (Aus) Pty Ltd
Address: Suite 403, Level 4, 44 Hampden Road
Artarmon NSW 2064
Australia
Telephone: +61 1300 667 199
E-mail: enquiries@reynardhealth.com.au

Emergency Telephone: 13 11 26

Date of SDS Preparation: 31/01/2019

2. HAZARDS IDENTIFICATION

This preparation is NOT classified as 'Hazardous' according to Directive 1999/45/EC and subsequent amendments.

Label elements:

Signal word: Not applicable.

Symbols: Not applicable.

Pictograms: Not applicable

Other assigned/identified product hazards: None known.

Other hazards which do not result in classification: None known

3. COMPOSITION AND INFORMATION ON INGREDIENTS

CAS Number: Not applicable, preparation is a mixture

EINECS Number: Not applicable, preparation is a mixture

Composition: An aqueous solution of a proprietary blend of humectant, solubiliser, emollient, amphoteric surfactant and a preservative system, which is listed in Annex VI of Directive 76/768/EEC impregnated onto a non-woven fabric.

Hazardous ingredients: None

4. FIRST AID MEASURES

Eye contact	If the impregnating fluid comes into direct contact with the eyes, immediately flush with plenty of water. Seek medical advice if irritation develops.
Skin contact	Not expected to present a skin hazard under normal conditions of use
Ingestion	Not expected to present an ingestion hazard under normal conditions of use
Inhalation	Not expected to present an inhalation hazard under normal conditions of use.
Most important symptoms and effects, both acute and delayed	No hazards which require special first aid measures
Indication of any immediate medical attention and special treatment needed	Treat symptoms as they occur.

5. FIRE FIGHTING MEASURES

Hazard type	Non flammable
Suitable extinguishing equipment	Water spray/fog, foam, Carbon dioxide and dry powder.
Extinguishing equipment which must NOT be used:	Water jet
Special protective equipment and precautions for fire fighters	Standard protective equipment should be worn by fire fighters. In the event of a large fire, toxic fumes containing oxides of carbon may be formed, which would necessitate the use of self-contained breathing apparatus.
HAZCHEM CODE	None allocated

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	None anticipated or expected to be required. Avoid direct contact of the impregnating fluid with the eyes
Environmental precautions	None anticipated or expected to be required
Methods and materials for containment and cleaning up	Absorb any impregnating fluid onto a suitable inert material and collect mechanically with spilled product for subsequent disposal.

7. HANDLING AND STORAGE

Precautions for safe handling: No special measures required but avoid direct contact of the impregnating fluid with the eyes.

Conditions for safe storage: Store under normal warehouse conditions.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure controls: No assigned values for the ingredients of this preparation.

Engineering Controls: None anticipated or expected to be required

Personal protection: This product is intended for skin use. Prevent eye contact. For professional use of his product, the need for personal protective equipment should be based on a work place risk assessment.

Environmental exposure controls: Dispose to general waste.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	White non-woven fabric impregnated with a colourless solution
Odour	Essentially odourless
PH of impregnating fluid	ca. 5
Boiling point of impregnating fluid	>100°C
Melting Point	Not available
Freezing point	Not available
Flash point of impregnating fluid	>100 °C
Flammability	Non flammable
Upper and lower explosive limits	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	Not available
Solubility	Impregnating fluid is completely miscible with water
Partition coefficient	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Viscosity	Not available

10. STABILITY AND REACTIVITY

Reactivity	This material is considered to be non-reactive under normal use conditions
Chemical stability	This preparation is stable under normal conditions of storage/use
Possibility of hazardous reactions	None known
Conditions to avoid	None known
Incompatible materials	None known
Hazardous decomposition products	Stable under normal conditions

11. TOXICOLOGICAL INFORMATION

Based on the ingredients present and their concentrations, this preparation is, according to the conventional method of Directive 1999/45/EC and subsequent amendments, classified as **NOT** 'Dangerous' according to health criteria.

Acute Toxicity: The oral LD50 (rat) value for the impregnating fluid calculated from those of the individual ingredients is >10,000 mg/kg.

Skin irritation: Not expected to present a skin hazard under normal conditions of use

Carcinogenicity	Not applicable
Reproductive Toxicity	Not applicable
Mutagenicity	Not applicable
Aspiration	Not applicable
STOT/SE	Not applicable
STOT/RE	Not applicable

12. ECOLOGICAL INFORMATION

Based on the ingredients present and their concentrations, this preparation is, according to the conventional method of Directive 1999/45/EC and subsequent amendments, classified as not 'Dangerous' to the environment.

The surfactant ingredients contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004.

Ecotoxicity	Not regarded as dangerous for the environment.
Persistence and degradability	No data available
Bioaccumulative potential	No data available
Mobility in soil	No data available
Other adverse effects	No data available

13. DISPOSAL CONSIDERATIONS

Disposal Method: Dispose of the preparation waste according to national and local regulations.

Precautions: None known

Disposal Methods to avoid: Do not flush. Do not dispose of significant quantities of the impregnating fluid into drains and water courses.

14. TRANSPORT INFORMATION

This preparation is NOT classified as 'Hazardous' for transport purposes.

15. REGULATORY INFORMATION

This preparation is not classified as 'Hazardous' for labelling purposes.

Label for supply:

Ingredients: Water, Propylene glycol, Benzyl alcohol, Polysorbate 20, Capryl/capramidopropyl betaine, Bis-PEG/PPG-20/20 dimethicone, Dehydracetic acid, Benzoic acid, Sorbic acid, Disodium EDTA, Sodium citrate.

Risk phrases: S(2) -Keep out of reach of children.

S25 -Avoid contact with eyes.

S26 -In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

16. OTHER INFORMATION

Issue date: 31 January 2019

Review date: 31 January 2024

This Safety Data Sheet, which takes into consideration the requirements of Directive 76/768/EC and subsequent amendments and Directive 1999/45/EC plus subsequent amendments, has been prepared in accordance with Directive (EC) 1907/2006. It is believed to be correct and corresponds to the latest scientific/technical knowledge but all data, instructions, recommendations and/or suggestions are made without guarantee.
