

Chemical Free

Antibacterial

Relieves Odour

Zorflex Long Fibre Activated Carbon Cloth provides an excellent alternative to traditional antimicrobial dressings that may contain chemical agents such as silver, iodine or Polyhexamethylene biguanide (PHMB).

Naturally antibacterial, antiviral and anti-fungal, Zorflex is a highly adsorbent, flexible textile which conforms to the body's contours and is easy to cut, fold or layer.

### NATURALLY ANTIMICROBIAL

Activated carbon cloth traps and destroys wound micro-organisms and reduces Matrix metalloproteinases (MMPs)

### CONDUCTIVE DRESSING

Restores the body's natural Trans-Epithelial Potential (TEP), aiding healing

### SUITABLE FOR HIGH AND LOW EXUDATION

Zorflex LA Low Adherent option for low exuding wounds

### Suitable for:

Wounds with suspected or proven infection or biofilm presence

Wounds with unviable tissue

Malodorous wounds

Reorder	Size	Sterility	Feature	Pcs/Unit	Units/Ctn
