Supporting Your Day Hospital with Tailored Solutions

Dear Valued Customers,

The Day Hospital Solutions team at EBOS Healthcare is delighted to announce our End of year 2026 promotion, running from 1st October to the 31st December.

This exclusive promotion has been thoughtfully curated to meet your consumables, devices instruments, and pharmaceutical needs—and much more. Partnering with trusted brands, we are committed to delivering high-quality products at competitive prices.

Ongoing Quarterly Promotions – Tailored for Day Hospitals

We are pleased to share an exciting update for our valued Day Hospital customers. Starting this year, we will provide ongoing quarterly promotions, offering competitive pricing negotiated with leading suppliers and manufacturers. These promotions are designed to align with the unique requirements of Day Hospitals, ensuring access to premium products at competitive rates in the market.

Our goal is to empower your healthcare facility with the right solutions to deliver exceptional patient care while optimising costs.

To view our current promotion, please visit www.eboshealthcare.com.au

Stay Informed and Take Advantage of Promotions

To stay updated on these offers, please ensure you check your emails from EBOS Healthcare Australia regularly. Our next quarterly promotion launches on 1st October 2026. Simply open the email, click on the featured products or banners, and you'll be directed to our website to explore further details or make a purchase.

Bulk Pricing and Further Assistance

For bulk pricing inquiries or additional information, please reach out to your dedicated Key Account Manager or contact our Customer Service team at 1800 269 534.

We deeply value your trust and partnership and remain committed to supporting your Day Hospital with high-quality healthcare solutions and exceptional service throughout the year and beyond.

Thank you for choosing EBOS Healthcare Australia.

Warm regards,

The Day Hospital Solutions Team

EBOS Healthcare

Vernacare

The DERMABOND® Family of topical skin adhesives (TSAs) and Skin Closure Systems

A unique portfolio of products for optimal skin closure outcomes:

DERMABOND® Topical Skin Adhesive

DERMABOND®

TOPICAL SKIN ADHESIVE

- A microbial barrier with 99% effectiveness for 72 hours in vitro*[1]
- Provides strength to maintain barrier and wound closure integrity[2]

DERMABOND® MINI TOPICAL SKIN ADHESIVE

EBOS Code: 10014189

Ideal for:

- Minimally invasive procedures
- Small lacerations

DERMABOND ADVANCED® TOPICAL SKIN ADHESIVE

EBOS Code: 10014192

Ideal for:

- Open hernia repair
- Medium to large lacerations

DERMABOND® PRINEO® Skin Closure System

DERMABOND® PRINEO®

SKIN CLOSURE SYSTEM

DERMABOND® PRINEO® Skin Closure System was shown to provide statistically significant greater skin holding strength than skin staples or subcuticular suture†[3]

EBOS Code: 10014190

Ideal for:

- Orthopedic surgeries:
  - Total knee arthroplasty
  - Spine surgeries
  - Total hip arthroplasty
- C-Section

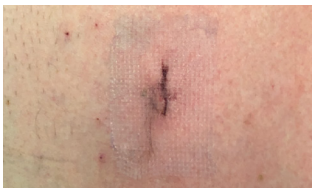

Port-Site Closure

As a replacement for sutures or staples, DERMABOND® PRINEO® System provides minimallly invasive closure - no holes in the skin due to sutures or skin staples[1].

PATIENT SATISFACTION

- Patient may be able to shower immediately after the procedure, if directed by the healthcare professional[1]
- At the time of removal, DERMABOND® PRINEO® System is associated with less pain than other wound closure devices[2]

Device can be cut to size of port-site wounds

- Non post-surgical dressings may mean easier self-care and greater self-confidence for patients[3]
- Improved Cosmesis[4¶]

PROTECTION AND STRENGTH

- Provides microbial-barrier protection 99% effective in vitro for 72 hours against organisms commonly responsible for surgical site infection (SSI)5*†
  - Demonstrated in vitro inhibition of Methicillin-resistant *Staphylococcus aureus*, Methicillin-resistant *Staphylococcus epidermidis*, and *Escherichia colit* †
- Powerful combination of topical skin adhesive and self-adhering mesh, provides significantly greater skin-holding strength than skin staples, subcuticular suture,[6,7‡] or DERMABOND ADVANCED™ Topical Skin Adhesive[8§]

* Clinical significance unknown § Study performed ex vivo. *Staphylococcus epidermidis, Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa, and Enterococcus faecium * In an ex vivo study, more load in N was required to create a 3-mm gap between skin edges approximated with DERMABOND PRINEO System (22cm) than with subcuticular 4-0 MONOCRYLR (poliglecaprone 25) Suture or PROXIMATE® Ethicon Endo-Surgery skin staples (P<.001). 1 Internal US Double-blinded quantitative research study comparing surgeon experience with DERMABONDTM PRINEOTM System and skin staples in total knee arthroplasty. N=83 orthopaedic surgeons. Mean score of 88 vs 40/100; 90% c.l. Fielded June/July 2017.

*As seen in vitro.
†In an ex-vivo study, more load in N was required to create a 3 ±1 mm gap between skin edges approximated with DERMABOND PRINEO System, than with subcuticular 4-0 MONOCRYL Suture or PROXIMATE® Ethicon Endo-Surgery skin staples (p=0.00).
