Dressings

AQUACEL® Ag+ Extra™ Dressing

AQUACEL® Ag+ dressings are antimicrobial primary dressings used for wounds that are infected or at risk of infection. They are designed to manage the 3 key local barriers to healing - exudate, infection and biofilm. AQUACEL® Ag+ dressings incorporate proven Hydrofiber™ Technology and Ag+ Technology - a unique ionic silver-containing, antibiofilm formulation. AQUACEL® Ag+ Extra™ dressing is comprised of 2 layers of Hydrofiber™ Technology stitch bonded together making it 9x stronger and 50% more absorbent than standard AQUACEL® Ag dressing.

AQUACEL® Ag+ Extra™ dressing may be used for the management of:

- Wounds as a barrier to bacterial penetration of the dressing as this may help reduce infection
- Wounds where there is an infection or an increased risk of infection
- Diabetic foot ulcers, leg ulcers, (venous stasis ulcers, arterial ulcers and leg ulcers of mixed aetiology) and pressure ulcers/sores (partial and full thickness)
- Surgical wounds
- Traumatic wounds
- Wounds that are prone to bleeding; oncology wounds with exudate
- Wounds where bacteria are a suspected cause of (or a factor in) chronicity /non-progression.

Hypafix® Dressing Retention Tape

Hypafix is a skin-friendly, non-woven tape used for wide area dressing fixation. The dressing retention tape transversely stretches, is highly conformable and easy to apply, even on difficult joint areas. It is easily cut to shape to suit patients treatment requirements.

- Low-allergy polyacrylate adhesive tape
- Air and moisture vapour permeable
- Good initial and long term adhesion
- Polyester non-woven backing
- Transverse stretch provides excellent conformability, even on contoured body areas such as knee, elbow and shoulder
- The tape is easily cut to required shape and size so no unnecessary wastage
- Complete primary dressing coverage reduces risk of contamination
- Virtually painless removal without leaving adhesive residue

EBOS Code	Description	Per Roll
10010667	HYPAFIX® DRESSING RETENTION TAPE 15CM X 10M	\$41.75

Nuline Pharmacy Vaccine Fridge HR400G With Glass Door 350L

- **Temperature Control:** The HR400G is equipped with advanced temperature control technology, ensuring that the internal environment is consistently maintained within the optimal range for vaccine preservation. This feature is crucial for maintaining the efficacy of vaccines and other sensitive products.
- **Glass Door Design:** The transparent glass door allows for easy visibility of the stored contents, enabling staff to quickly assess inventory without opening the fridge. This design not only enhances convenience but also helps maintain temperature stability.
- **Secure Storage:** Designed with security in mind, the Nuline HR400G includes a locking mechanism to prevent unauthorized access, ensuring that valuable vaccines are protected at all times.
- **User-Friendly Interface:** The fridge features an intuitive control panel that allows for straightforward temperature adjustments and monitoring. This user-friendly interface simplifies operation and enhances efficiency in busy healthcare environments.
- **Energy Efficient:** Built with energy-saving technology, the HR400G minimizes power consumption while maintaining optimal performance, contributing to cost savings for healthcare facilities.
- **Robust Construction:** The fridge is constructed from high-quality materials, ensuring durability and longevity in demanding clinical settings. Its design meets industry standards for pharmaceutical storage.
- **Dimensions:** 595 x 650 x 1850cm

Defibtech Lifeline Semi Automatic Two Button AED Defibrillator

The Lifeline features a simple two-button interface, clear voice prompts, and easy-to-see progress lights. The AED has a long-life battery option and is built to military standards to resist dust, water, shock, and vibration. It also uses biphasic technology, a clinically proven waveform and algorithm, which has extensive clinical experience and success in thousands of defibrillators around the world. The device can be upgraded and data from the unit can be easily recorded and retrieved using a data card.
