Dressings

Osmocel® Si Silicone Hydroporous Foam

Osmocel® Si Silicone Hydroporous Foam is a dressing that protects the skin and wounds. The Osmocel Si promotes wound healing and excess exudate absorption, to decrease the need for frequent dressing changes.

Osmocel Si Silicone Hydroporous Foam is suitable for skin tears, superficial wounds with light exudate, arterial, diabetic, and venous leg ulcers, pressure injuries, partial thickness burns, and surgical wounds.

EBOS Code	Description	UOM	PRICE
10008567	OSMOCEL SI-SILICONE FOAM LITE 5x5cm	Box/10	\$14.33
10015602	OSMOCEL SI-SILICONE BRDRD 7.5x7.5cm	Box/10	\$36.14
10015603	OSMOCEL SI-SILICONE BRDRD 10x10cm	Box/10	\$53.80

IMPERVIA® Neosorb Superabsorbent Dressing

IMPERVIA® Neosorb Superabsorbent Dressing quickly absorbs and binds large amounts of wound exudate into its 'heart' of Superabsorbent polymers. It is suitable for heavily exuding wounds, exudate management under compression therapy and for protection of clothing and linen.

EBOS Code	Description	UOM	PRICE
10015467	IMPERVIA® NEOSORB SUPERABSORBENT DRESSING 10cm x 10cm	Box/20	\$24.89
10015473	IMPERVIA® NEOSORB SUPERABSORBENT DRESSING 10cm x 20cm	Box/20	\$49.76
10015469	IMPERVIA® NEOSORB SUPERABSORBENT DRESSING 15cm x 20cm	Box/20	\$44.29
10015471	IMPERVIA® NEOSORB SUPERABSORBENT DRESSING 20cm x 30cm	Box/20	\$84.07

AsGUARD® Flex Fabric Fixation Tape, Non-Woven

AsGUARD® Flex Fabric Fixation Tape is a "cut to length" self-adhesive, non-woven tape that is highly comfortable, conforming and breathable.

It is suitable for fixations of dressings and access devices, and acts as a skin protective layer under more aggressive adhesives. Its flexibility also makes this tape ideal and comfortable against joints and difficult contour areas without movement restriction.

EBOS Code	Description	UOM	PRICE
10015523	ASGUARD FLEX NON WOVEN ROLL 2.5cmX10m	Roll	\$3.36
10015524	ASGUARD FLEX NON WOVEN ROLL 5cmX10m	Roll	\$4.59

Dressings

Aquacel® Ag+ Extra™ Dressing

Biofilm is present in 78% of hard-to-heal wounds and is a primary barrier to healing.¹ To prevent biofilm reformation on the wound bed, effective, long-lasting antimicrobial protection is needed.² Aquacel® Ag+ dressings are specifically designed to meet the unmet need of effective biofilm action.³

Aquacel® Ag+ dressings are antimicrobial primary dressings for use in wounds that are infected or at risk of infection.⁴ Aquacel® Ag+ dressings incorporate Hydrofiber® Technology⁴ and Ag+ Technology - an ionic silver-containing, antibiofilm formulation.

Aquacel® Ag+ Extra™ dressings are comprised of 2 layers of Hydrofiber® Technology stitch bonded together.

A secondary dressing is required to hold Aquacel® Ag+ Extra™ Dressings in place, such as:

- a moisture retentive cover dressing such as DuoDERM® Extra Thin in lightly to moderately exuding wounds;
- a secondary cover dressing such as Aquacel® Foam or ConvaMax™, in moderate to heavily exuding wounds.

Refer to the Instruction For Use.

Aquacel® Ag+ Extra™ dressing may be used for the management of:

- Wounds where bacteria are a suspected cause of (or a factor in) chronicity/non-progression
- Wounds where there is an infection or an increased risk of infection
- Diabetic foot ulcers, leg ulcers, (venous stasis ulcers, arterial ulcers and leg ulcers of mixed aetiology) and pressure ulcers/sores (partial and full thickness)
- Surgical wounds
- Traumatic wounds
- Malignant wounds

OptiLube Sterile Lubricating Gel 113g Tube

OptiLube has been developed by clinicians for clinicians.

The gel is water soluble, and has no additional active ingredients, so it's ideal for patients with allergies. With a unique flip-cap, these tubes can be opened easily without leaks. They're easy to squeeze accurately, avoiding wastage, and the large cap means you can store the tubes upright, saving space.

OptiLube tube is specifically designed with an expanded opening for the effective lubrication of intermittent catheters. OptiLube will not damage rubber or metal and is safe to use on human tissue.

OptiLube is an essential universal gel and is recommended for the following uses:

- Insertion of Catheters
- Insertion of Speculum
- Rectal thermometers
- Enemas/douches
- Gynaecological examination
- Insertion of tampons
- Digital and instrument examinations
- Lubrication of condoms
- General hospital procedures

Skincare Management

In winter, you may find your skin requires an increased level of hydration, so using some of the below dermatologist tips¹ may help you keep your skin hydrated in the cooler weather:

- ✓ Use a soap-free wash¹
- ✓ Moisturise immediately after bathing²
- ✓ Opt for a moisturiser that is fragrance free and free from common irritants
- ✓ Consider changing to a cream instead of a lotion for extra hydration
- ✓ Choose skincare products that are dermatologically tested

How QV can Help

At Ego, we understand the science behind healthy looking skin, that's why we've created a whole range of products that suit different levels of hydration.

Proudly Australian made and owned, QV is dermatologically tested, free from fragrance and common irritants to be suitable for use on even the most sensitive skin.

LIGHT HYDRATION For dry skin

MODERATE HYDRATION For very dry skin

INTENSIVE HYDRATION For extremely dry skin

JOBST® soSoft

8-15mmHg Compression sock

Essity is excited to announce a new range of Ready-to-Wear compression socks.

JOBST® soSoft compression socks provide graduated compression to help support circulation and are an integral part of a skin tear protocol, helping with prevention and treatment. Compression therapy should be considered if the wound is on the lower leg. Before applying compression, a full leg assessment should be carried out.

With gentle compression of 8-15mmHg, JOBST® soSoft compression socks can help tired and achy legs, are suitable for longer periods of sitting and standing and provide relief from minor oedema.

JOBST soSoft compression socks are available in a stylish ribbed pattern, in Black and Sand colours
