Fixomull® Stretch Adhesive Tape

Fixomull® stretch tape allows easy and quick fixation especially of large dressings. Application and fixation of dressings requires excellent adaptability and flexibility – in the operating room, on the ward and in outpatient departments. The product can be cut to size, saving material and reducing cost. Fixomull® stretch is coated with a hypoallergenic* polyacrylate adhesive. The backing material is made of transversely stretch-able non-woven polyester. Fixomull® stretch adapts well even to highly contoured parts of the body. Constriction, congestion and disturbances of blood circulation is prevented. Fixomull® stretch is very well tolerated even by patients with sensitive skin.

Fixomull® stretch is suitable for:

- Wide-area fixation of wound dressings, particularly on joints, frequently moved and contoured parts of the body
- For secure fixation of tubes, catheters, measuring devices and instruments

Handycrepe Hospital Non-Adhesive Crepe Bandage

The Handycrepe Hospital is a high-quality, non-adhesive light support crepe bandage, designed for wound care and dressing retention. It offers reliable performance in both clinical and hospital settings. It is ideal for various healthcare applications, including dressing retention for post-operative wounds, providing light compression for mild sprains or strains, and securing wound dressings in both emergency and routine care settings.

- **Lightweight Support:** Provides gentle compression and support, making it ideal for securing dressings or offering light immobilisation.
- **Durable Material:** Crafted from premium-grade cotton for optimal elasticity and durability, ensuring consistent performance during use.
- **Non-Adhesive Design:** Easy to apply and remove without causing discomfort or irritation to the patient.
- **Versatile Application:** Suitable for use in general wound care, post-operative dressing retention, and light sprain support.

AQUACEL® Ag Foam Dressings

AQUACEL® Ag Foam is a Hydrofiber™ foam dressing with silver that have been designed to be a primary dressing. AQUACEL® Ag Foam is comprised of a soft foam pad for fluid absorption offering both a waterproof and bacteria barrier to prevent moisture transmission and protection from bacteria penetration. It is ideally used for exuding acute or chronic wounds prone to infection.

Benefits of this dressing:

- Lock in wound exudate, including bacteria
- Help maintain a moist wound healing environment
- Help prevent lateral spread of fluid, reducing risk of maceration
- Micro-contour to the wound bed, minimising dead space where bacteria can grow
- The 1.2 % ionic silver in the dressing a wide variety of micro-organisms, pathogenic microorganisms, including wound bacteria, yeasts and moulds

Equipment

Walmay Cryospray Gun 350ml

Primary care physicians can simply and quickly treat such problems as keratoses, condylomata, warts, skin tags and other skin lesions every day using Walmay Cryospray.

- Minimal preparation and quick application, therefore faster patient turn around
- No anaesthesia
- Little if any patient after care required
- Cryosurgery is well received by patients
- Increasing productivity. In about the same time that it takes to write a referral, the primary care practitioner can treat the patient.
- Saving the patient considerable time and expense. The treatment is normally carried out in the one interview, therefore your patient is spared the time and associated expenses of a referral.

High Frequency Desiccator Bovie DERM 942

The Bovie DERM 942 high frequency desiccator has been designed and engineered to be the most reliable and durable desiccator available on the market. The unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat.

- 40 watt frequency desiccator
- Adjustable in 1/10th watt increments in the first 10 watts, in monopolar and bipolar
- More accurate power with Universal Power Control 100-240 VAC
- Less to do and less to buy makes this the most cost effective and user friendly unit on the market
- The Bovie DERM 942 is a ground reference unit which means no grounding pad is required
