Sentry MEDICAL Dressings

ASGUARD® Silicone Border 5 Layer Dressing

Asguard Silicone Border is an all-in-one 5-layer dressing designed to deliver absorption, comfort and protection across a broad range of wounds. Its soft silicone adhesive layer gently adheres to the skin without sticking to the wound bed, minimising pain and trauma during dressing changes. The dressing features a highly absorbent foam pad that manages exudate effectively, while the breathable backing film maintains an optimal moist wound environment.

EBOS Code	Description	UOM	PRICE
10027056	ASGUARD SILICONE BORDER 8.9 x 8.9cm	Box/10	$31.12*

ASGUARD® Silicone Border Lite 5 Layer Dressing

The Sentry Medical Lite Asguard Silicone Border Dressing supports wound care in Australian healthcare settings. It enables exudate management and dressing fixation during patient treatment. The dressing supports use on wounds in hospitals, general practice, and community care. It assists clinicians with wound coverage, dressing changes, and patient management.

ETHICON SYNTHETIC ABSORBABLE SUTURES

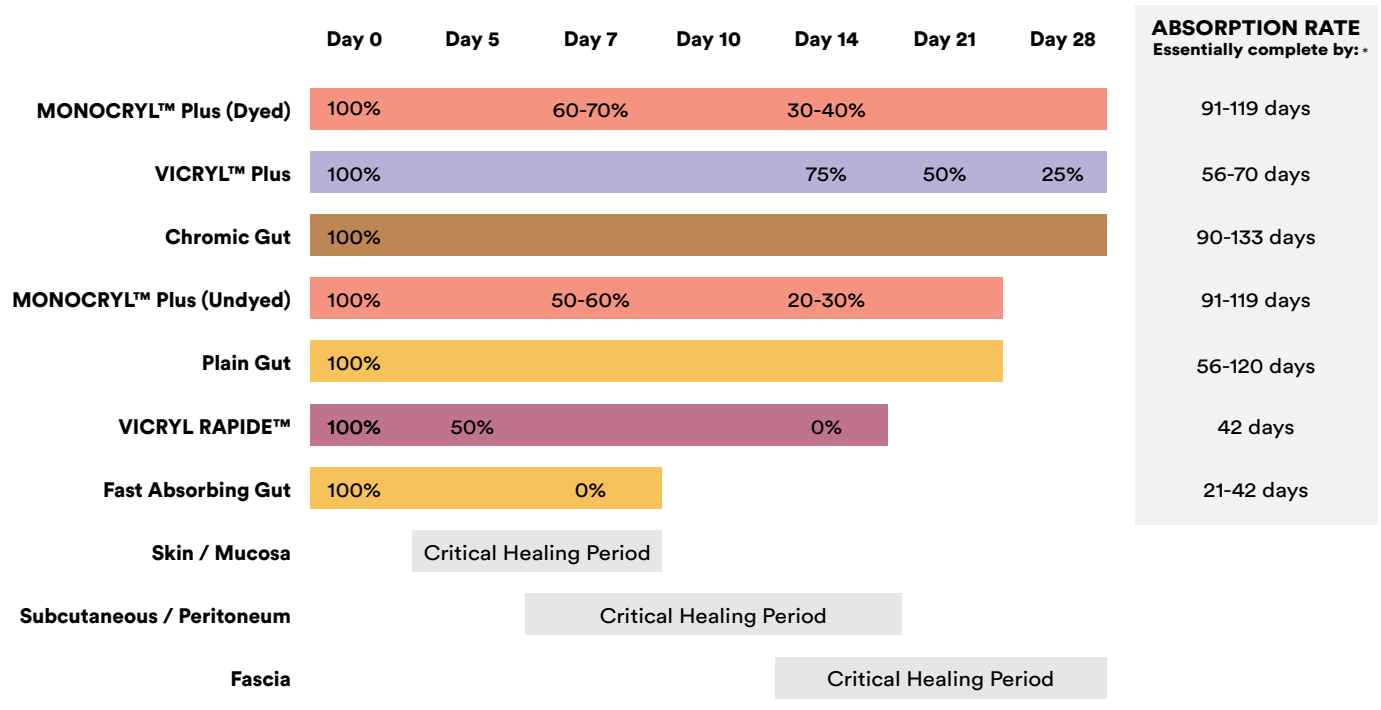

It's time to make the switch

Ethicon is discontinuing some gut suture codes in order to alleviate supply pressures across our suture portfolio. We understand this can be an inconvenience, we recommend considering our **synthetic absorbable sutures** that offer the same Ethicon suture and needle quality you trust.

Ethicon offers synthetic absorbable sutures to satisfy a broad range of tissue layer closure and strength retention needs. To help smooth the transition, a **comparable synthetic absorbable suture—which includes Plus Antibacterial Sutures—**is available for each of the affected gut suture offerings

In Vitro Suture Strength Retention Ranges vs. Critical Wound Healing Period[1-7]

Johnson&Johnson MedTech

*Time necessary for suture to dissolve, leaving no detectable traces in tissues.

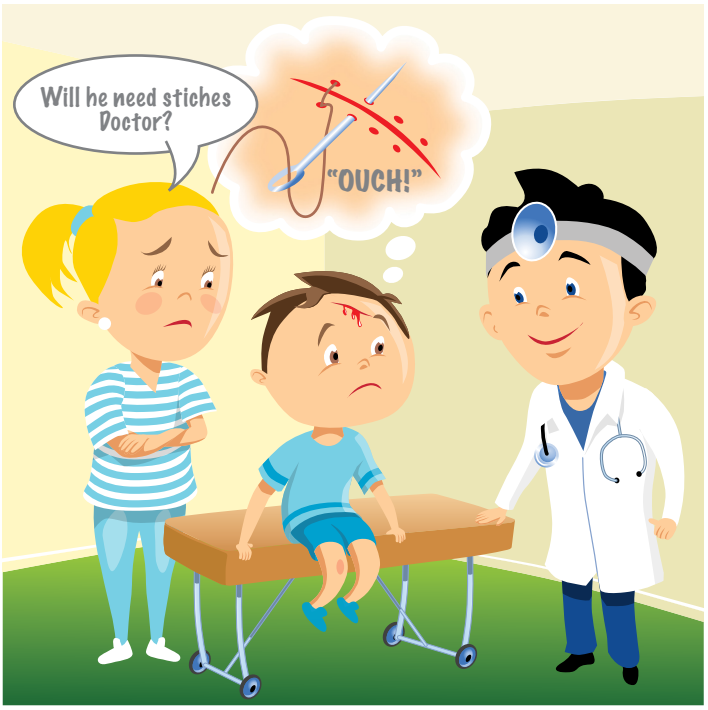

Intended for use by clinically trained medical professionals.

For complete indications, contraindications, warnings, precautions, and adverse reactions, please reference full package insert.

References: **1.** VICRYL RAPIDE™ (polyglactin 910) Suture, Instructions for Use. Ethicon, Inc. **2.** Fast Absorbing Surgical Gut (Plain), Instructions for Use. When it comes to wound closure **have you considered a Topical Skin Adhesive?**

A simple to use option that is cost effective and fast. [3]

- Addresses cost and convenience concerns by eliminating the need for return visits to remove sutures and any dressings.
- Offers fast closure of small incisions and lacerations.
- Provides patient comfort by providing flexible closure without the pain or anxiety caused by needles.

Dermabond, the Superhero of Topical Skin Adhesives.

For complete indications, contraindications, warnings, precautions, and adverse reactions, please reference full package insert.

Intended for use by clinically trained medical professionals.
